LE ISTRUZIONI PER IL MONTAGGIO

Assicurarsi che il muro sia pulito e senza tracce di grassi. Verificare la tenuta della pittura ed eventualmente applicare uno strato di fissativo.

Tagliare le cornici in modo da realizzare gli angoli che vi servono, verificando che combinino.

Applicare una colla speciale acrilica a base cementizia per rivestimenti esterni lungo le superfici posteriori dell'asta e sulle giunture. Mediante una leggera pressione applicare la cornice alla parete. Utilizzare anche tappi ad espansione. Lasciare asciugare.

Dopo una settimana riempire ogni giuntura o spazio con Bovelacci tipo BST2 (incidenza media stucco per le cornici: 1kg. X 20 ml).

Rimuovere quindi lo stucco in eccesso con una spugna bagnata. Lasciare asciugare e rifinire con una buona pittura elastica a base d'acqua od acrilica per esterno.

(GB)

ASSEMBLING INSTRUCTIONS

Examine your ceiling to be sure that it is clean and free of any grease. Verify the painted surface and if necessary apply a primer.

Cut straight ends to make the type of corners you need, checking that they match.

Apply a special acrylic and cement-based glue for external covering on the hind surfaces of the staff and on the joints. Press the moulding to the wall with a light pressure. Use also expanding stoppers. Let it dry. After a week fill all the joints or gaps with BST2 Bovelacci stucco (average incidence of stucco for mouldings: 1kg x 20 lm). Remove the stucco in excess by using a damp sponge. Let it dry and finish off with a good elastic water-based or acrylic paint for exterior.

(E)

INSTRUCCIONES DE MONTAJE

Los productos tienen que ser instalados en una superficie seca y limpia.

Cortar la moldura para obtener el ángulo que necesita. Confirme que calce.

Aplicar un pegamento acrílicos a base de cemento para revestimientos en las caras de la tira que se pegaran a la pared y entre las juntas.

Presionar levemente la moldura a la pared. Después de una semana llenar cada junta y espacio de estuco Bovelacci BST2 (promedio de consumo: 1 kg. x 20 ml).

Quitar el exceso de estuco con una espátula.

Limpiar usando una esponja.

Dejar que se seque y poner una buena elástica pintura a base de agua para exterior.

(P)

INSTRUÇÕES DE MONTAGEM

Os produtos devem ser aplicados sob paredes secas, limpas e desengorduradas.

Verificar o comportamento da pintura e eventualmente aplicar de primar.

Comece por cortar as sancas de modo a fazer os ângulos necessários. Preste atenção para ver se estão correctos.

Aplique uma cola acrílica para exterior em ambas as superfícies posteriores que serão colocadas em contacto com a parede e também nas as juntas.

Aplicar a sanca na parede com uma leve pressão.

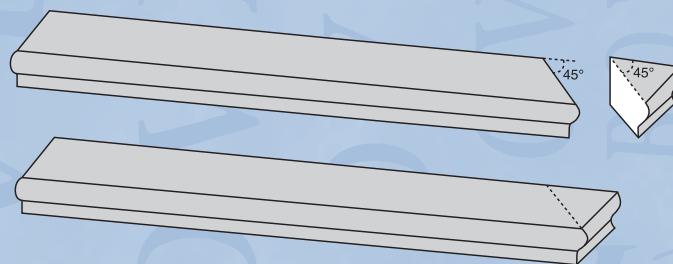

Usar também pregos expansivos

Depois de uma semana preencher com a massa de enchimento Bovelacci BST2 (rendimento: 1 kg/20 m) todos os espaços entre as juntas.

Retirar o excesso de massa de enchimento com a ajuda de uma espátula.

Então limpar, com a ajuda de uma esponja.

Deixe secar e pinte com uma boa elástica tinta à base de água para exterior.

BST2 STUCCO

Kg 2

Lo stucco BST2 è da utilizzare solo per la stuccatura delle giunte e non per l'incollaggio.

Incidenza media: 1 kg x 20 ml

Per l'incollaggio si consigliano colle acriliche a base cementizia per rivestimenti esterni e l'utilizzo dei tappi ad espansione

BST2 STUCCO: use only as a filler, not as an adhesive.

Average incidence: 1 kgs x 20 m

As adhesive, we suggest acrylic glues for outside use and expanding nails

BST2 STUCCO: se debe usar solamente para estucar las juntas y no para pegarlas.

Promedio de consumo: 1 kg x 20ml. Para pegar se aconsejan pegamentos acrílicos a base de cemento para revestimientos de

BST2 STUCCO: usar somente como massa de enchimento. Não como cola.

Rendimento: 1 kg/20 m

Para colar recomendase a utilização de cola acrílica e pregos expansivos

WALL BRICKS ROSSO

215 x 50 x 5,8 mm

(8 ⁷/₁₆" x 1 ¹⁵/₁₆" x ⁴/₁₆")

1 - stendere la superficie da rivestire la malta BRICKCOLL con una spatola dentata.

1 - Lay down Brickcoll on the chosen surface with a spatula

2 - applicare le mattonelle , partendo da un lato, mantenendo una fuga tra le file di circa 1 cm

2 - Apply the single bricks, starting from one side, keeping a 1 cm distance between the edges

3 - ritoccare le fughe con un pennello bagnato per ottenere un effetto più realistico.

3 - Pass a wet brush on the open spaces to get a more realistic effect

4 - in prossimità dei bordi, le mattonelle possono essere sagomate con un semplice cutter.

4 - Bricks may be cut to size in order to fit the surface edges with a simple cutter

5 - in prossimità di angoli e curve, scaldare le mattonelle con aria calda o simili (es. un asciugacapelli) per dar loro la forma desiderata.

5 - Heat up the bricks with warm air (i.e. Hair drier) to make them fit the surface next to corners and curves
